

Patrick Sheridan

Full Stack JavaScript developer with a diverse background in Environmental Science and Medical Research. Dedicated to improving the world one line of code at a time.

Projects

Pseudo Pet -

<https://paw-sibilites-frontend.herokuapp.com/>

<https://github.com/G4-Final-Project>

Rapidly developed MEAN-stack web app for parents to use as a tool to determine how ready their child is to own a pet. Built from the ground up integrating Angular Material, the Twilio API, and Node-Schedule

Do You Even Steam-

<https://do-you-even-steam.herokuapp.com/>

An app that uses API calls to the Steam API displays a user's total hours on the Steam gaming platform and then uses SQL to store and compare user on the leaderboard.

Business Time Backend -

<https://github.com/CF-JS-iOS-G-5/javascript-back-end>

Worked in tandem with an iOS frontend team to build a RESTful API backend. Utilized Test Driven Development, MongoDB

Experience

CodeFellows Seattle

January 2017- June 2017

Sudent (fulltime): High intensity coding bootcamp focusing on learning to build MEAN, full stack web development. Here I mastered skills such as HTML, CSS, JavaScript, and Angular but also many others.

U.S. Forest Service, Arapaho National Forest

April 2016- September 2016

Biological Science Aid (seasonal): Using a systematic approach and a variety of methods, my crew and I applied specialized herbicide to control and eliminate invasive plant species throughout the district. Utilizing multiple delivery systems, we were able to target specific noxious plant species with minimum environmental impact.

LabCorp Seattle

January 2015 - September 2015

Accessioning Laboratory Assistant: At this position, I was responsible for the preparation of laboratory specimens prior to analysis and testing. For each sample, I received I would; transcribe patients handwritten medical info into the system, label each sample, and carefully aliquot each specimen to send to each testing department.

Clark-Hoeksema Investment Properties

April 2014 - August 2014

Contractor

Mount Hood Forest Service

June 2013 - September 2013

Forest Service

Front-liner

Lodge Tour Guide

Education

Western Washington University

BS, Environmental Science

CodeFellows

Front-End JavaScript

Skills

- Full Stack JavaScript
- Angular
- React (in progress)
- Redux (in progress)
- SQL
- Test Driven Development(TDD)
- Data Structures
- Continuous Deployment
- RESTful API
- MongoDB
- HTML/CSS
- Heroku
- Git/Github
- Bootstrap

- Mac OS, Windows XP to Windows 10, and Linux
- Adobe Photoshop

- CPR Certified
- First Aid Certified
- Water quality lab exp.
- Medical Lab experience
- Forest restoration exp.
- Chemistry/biology lab exp.
